

I am a very concerned American, 53, female, white middle class.

I am dismayed by the FCC decision to allow Sinclair Broadcast Group to force affiliate stations to air "Stolen Honor". I am certain that the FCC would not allow any broadcast company to force its affiliates to air Michael Moore's documentaries. I am joining thousands of concerned Americans in a very real and very serious boycott of all advertisers that support Sinclair Broadcast Group.

These days are very dark for my country, and this FCC decision threatens the foundation of our democracy.
